

BRIEF PROFILE OF MULTIVERSITY

Multiversity is a Private Limited Company which was founded in the year 2000 to advance the concepts of e-Learning, e-Services and e-Governance. Multiversity works towards creating technologies and services for the emerging knowledge-based society. Over 5 million users have used Multiversity's products and services, underlining our commitment to develop World-class technologies and solutions.

ELEARNING CONTENT SOLUTIONS

One of Multiversity's core verticals is developing world class eLearning Content. Having partnered with national institutions, Multiversity has developed Technologies that put a special emphasis and relevance on using the best-suited media to deliver training products through computer-based learning, web-based learning, virtual classrooms and digital collaboration. Learners demand for an enjoyable, value adding and personalized learning experience are the fundamentals we follow while developing Content. The delivery of course content, assessments and communications is standard. Each tutor can monitor and react to the progress of his or her students.

We offer services in the following areas:
